

ACCOUNTING FOR FREELANCERS IN PORTUGAL

# Nomad Plan

Portuguese accounting and tax for freelancers and self-employed professionals  
— managed in English.

## THE NOMAD PLAN

# Management accounting, not just bookkeeping.

Management accounting is a decision tool. It gives you clear financial information about your business, so you can make the right decisions — instead of running it by your bank balance.

## THE IDEA

**Stop managing your  
business by your bank  
balance.**

You see your numbers clearly, you know your tax in advance, and you decide with confidence.

## HOW IT WORKS

# Two steps.

1

STEP 01

## Nomad Production

Analyze fiscal and accounting information in order to identify the income to be declared.

2

STEP 02

## Nomad Tax

Fulfill tax obligations of self-employed and individual worker, taking into account the tax framework.

## WHAT THE NOMAD PLAN COVERS

# Your obligations, handled on time.

- Quarterly VAT (IVA) returns and payments
- Quarterly Social Security declarations
- Annual personal income tax return (IRS — Modelo 3)
- IRS payments on account
- The correct tax framework for your activity

### EVERY QUARTER

**We present your  
Results and an  
estimate of your tax.**

Four times a year you get a clear read on how the business is doing and what you will owe — no surprises.

WHEN IT MATTERS, WE LOOK AT YOUR CASE

# Two decisions worth getting right.

## Your tax regime

Simplified regime or organised accounting? The right choice depends on your activity and on a careful cost-benefit analysis.

## NHR / IFICI

The IFICI regime (often called NHR 2.0) can reduce your tax, but it typically requires setting up a company — it is not available while you stay a sole trader. We assess whether it fits you (our partner lawyer handles the application; we handle the accounting).

Not sure which applies to you? Book a call — we'll look at your case.

## PRICING

# One monthly fee.

 **85****PER MONTH + VAT**

STANDARD NOMAD PLAN FEE

This is the standard Nomad Plan fee. The exact amount depends on your specific tax obligations.

It covers the recurring work on the previous pages: your quarterly VAT and Social Security filings, your annual IRS, your payments on account, and the quarterly read on your numbers.
